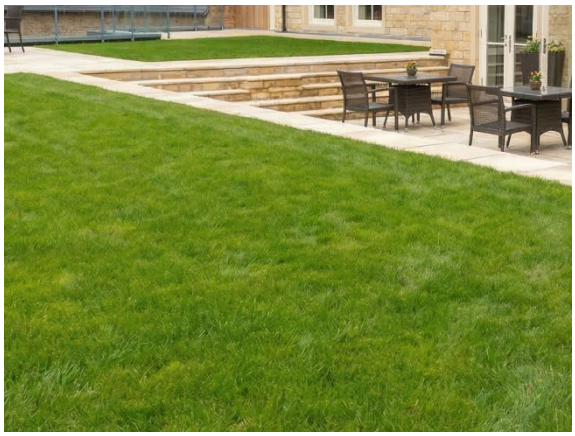
Green Roof Turf

Data Sheet

ABG Green Roof Turf is a multi-purpose lawn turf that is ideally adapted to the diverse UK climate.

Roll of turf ready for installation.



Turf installed as part of an extensive green roof.

Turf Properties			
Composition		A blend of fescue and ryegrass cultivars.	
Coverage		Each roll covers approx. 1m²	
Roll Dimensions	(mm)	610 x 1640 x 12.5	nominal
Roll Weight	(kg)	15 - 20 depending on saturation.	nominal

Application Notes

- Can be laid at any time except in frosty weather.
- Turf must be rolled out immediately in spring/summer or within 24 hours in autumn/winter.
- Great effort is taken to minimise the existence of Annual Meadow Grass in this turf. Some rolls may have higher content than others.
- Turf may contain a biodegradable net.

1 The values given are determined from statistical Interpretation of test results obtained in our laboratories and are subject to tolerances. In line with our policy of continuous improvement the right is reserved to make changes without notice at any time.

2 Final determination of the suitability of any information is the sole responsibility of the user. ABG will be pleased to discuss the use of this or any other product but responsibility for selection of a material and its application in any specific project remains with the user.
